\* **NOTE:** The table above summarizes the results with regards to the blocking procedure of illegal websites, which either do not hold a Class B license or offer illegal betting services. The procedure was implemented during the period of 2015 until September 2019. The results have been distributed on a quarterly basis. As it can be seen in the table above, when comparing the first quarter of 2015 with the first quarter of 2016 no increase is recorded in the number of websites that have been blocked. However, when comparing the first quarter of 2017 with the third quarter of 2019 a significant increase of 302% is recorded. This is due to the blocking of illegal websites, that was employed on the 1st of November 2016 (4th quarter of 2016), and applied to legal entities who had not submitted an application for a Class B license and operated on a transitional level according to article 101(3) of the 2012 Betting Law.
